

The reason for this cases Occurrence is directly to blame on U.S Secret Service /Homeland Security Agents Brian Deer And Michael Skinner . (Amendment V

No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.) That Constitutional right was violated the minute i was taken to the Jackson crisis facility against against my will my ability to leave the facility was apparent and i was injected with medication against my will.While i am not a physician i've discussed the dosage with a few medically trained individuals and they felt the 100 mg dosage was excessive one stated the average dosage is 5-20 mgs . I nearly died because of the medication i was given i lost consciousness on various occasions was in the larkin medical facility for two days and and spent nearly a month recovering at my residence. I don't believe the agents have any justification for taking me to this facility yes i used government seals on official documents and requested to have them reviewed by a court of law. If there use was illegal i should have been charged with impersonation / fraud/counterfeiting (not Currency) . If they state that i was violent and aggressive towards law enforcement that is also a criminal offense not a mental illness .In either regard Mr.Michael Skinner Violated My Constitutional rights . Because these original documents Had government seals and also because procedures were not followed Another Violation of my constitutional rights was committed (Admendment 1 Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.)
